Looking For God

I'm looking for God in my own way
I'm looking for God
I'm looking for God every single day
I'm looking for God
I'm looking for God in the factory
I'm looking for God
I'm looking and God's looking back at me
I'm looking for God

In the rocks in the grass
In the people I pass
In the birds flying up in the sky
In the sun and the moon
In the back of the room
Hidden right there in front of my eyes

I'm looking for God in my own way
I'm looking for God
I'm looking for God every single day
I'm looking for God
I'm looking for God in the factory
I'm looking for God
I'm looking and God's looking back at me
I'm looking for God

I look up look down
I dig under the ground
Swim the ocean and fly through the air
Climb to the top of a tree
Till I finally see
That God is everywhere

I'm looking for God in my own way
I'm looking for God
I'm looking for God every single day
I'm looking for God
I'm looking for God in the factory
I'm looking for God
I'm looking and God's looking back at me
I'm looking for God
I'm looking for God
I'm looking for God
