Open Heart

With an open heart
It feels like anything is possible
No matter where you are
You know that things will be okay
Because an open heart
Can overcome most any obstacle
And the greatest part
Is that you can start
Today

If you're feeling lonely
If you're feeling sad
If you lost the only
Friends you had
Don't be discouraged
Don't shed those tears
Just remember that there's
Nothing to fear

With an open heart
It feels like anything is possible
No matter where you are
You know that things will be okay
Because an open heart
Can overcome most any obstacle
And the greatest part
Is that you can start
Today

You don't need no money
You don't need no car
You just love the person
That you are
Once you get things going
The feeling starts to spread
All your cares were only
In your head

With an open heart
It feels like anything is possible
No matter where you are
You know that things will be okay
Because an open heart
Can overcome most any obstacle
And the greatest part
Is that you can start
Today
