Tend Our Garden

We've gotta tend our garden
We've gotta help it grow
We've gotta tend our garden
Don't ya know?

We can turn the lights off
And save some energy
We can recycle paper
And protect lots of trees

We can pick up litter
And clean our neighborhood
Instead of saying something mean
We can focus on the good

We've gotta tend our garden
We've gotta help it grow
We've gotta tend our garden
Don't ya know?

People share the earth
With animals and trees
So we've got to be responsible
We can't do just as we please

The earth is ours to keep
So let's be nice to it
Our children and grandchildren
Will be so glad that we did

We've gotta tend our garden
We've gotta help it grow
We've gotta tend our garden
Don't ya know?

If we all work together
It will be easier than it seems
The world will be a better place
Because of you and me

We've gotta tend our garden
We've gotta help it grow
We've gotta tend our garden
Don't ya know?
